Healthpointe Now Provides Immigration Examinations

Healthpointe's Physical Examinations provide licensed records for individuals seeking citizenship

La Mirada, California (PRWEB) December 31, 2014

Healthpointe is now offering medical examinations for individuals seeking to adjust their Immigration status. **With 12 clinics** across Los Angeles County, Orange County, San Bernardino County, and Riverside County, Healthpointe can provide thorough immigration physicals and immigration exams in accordance with the Department of Homeland Security.

Healthpointe's immigration physicals are conducted by licensed US Civil Surgeons each of whom meet the civil surgeon's responsibilities and requirements as determined by the Bureau of Citizenship and Immigration. Immigration Physical Exams at Healthpointe include a basic physical examination, tuberculosis skin testing, required blood work, vaccines (if necessary), vaccination status verification, copies of the patient's laboratory results, and a sealed and certified I-693 form. The I-693 form, or report of medical examination and vaccination record, is required by the United States Citizenship and Immigration Services for all applicants applying for permanent residency.

The physical examination and accompanying I-693 form serve to verify that the individual does not have any public health concerns which would disqualify them from residency. Healthpointe provides swift results within 48-72 hours of the examination.
