Description

HEALTHPOINTE IS SEEKING A LIMITED LICENSE DIGITAL X-RAY TECHNICIAN IN THE CITY OF ANAHEIM!

Healthpointe is a leading multidisciplinary healthcare organization that offers a full range of medical services in practice locations throughout Southern California (Los Angeles County, Orange County, San Bernardino County and Riverside County). Our specialty services include but are not limited to orthopedic care, occupational medicine, acupuncture, chiropractic care, physical therapy, weight management, sports medicine, and more. Leading our organization is a dynamic team of healthcare professionals who continually strive to be at the forefront of medical innovation and healthcare service delivery.

At Healthpointe, we recognize that our employees are our greatest assets when it comes to providing exceptional care to our patients. That is why Healthpointe is dedicated to hiring the most skilled and highly qualified staff to uphold our standard of care.

Responsibilities

The radiology technician needs to follow directions exactly, so that the images are taken correctly.

An x-ray technician works with complex radiology machines within the hospital setting. They are to use their knowledge to read the doctor's orders, adjust the equipment, prepare and adjust the patient to get the best picture, maintain patients records and operate the computer connected to the x-ray machine.

An x-ray technician must ensure the patient's safety. This includes reducing any harm from radiation by using heavy lead shields on the patient.

Radiology techs may work with patients who are in pain or frightened. They also need to work with the patient to move or position them to get the best image. Being a good communicator helps.

Radiology techs have to work on their feet for long days, and they spend those days working with complex computers and machinery.
